EDUCATION

- Dr.D.Y.Patil College of Engineering Salokhenagar** Kolhapur, India
Bachelor of Technology - Computer science; GPA: 8.00 July 2023 - June 2027
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

SKILLS SUMMARY

- Languages:** Java, JavaScript, TypeScript, SQL, HTML5, CSS3
- Frontend:** React.js, Tailwind CSS, Bootstrap, Responsive Web Design
- Backend:** Node.js, Express.js, REST APIs
- Database:** MongoDB, MySQL, PostgreSQL
- UI/UX Design:** Figma, Wireframing, Prototyping, UI Design, UX Principles
- Tools & Deployment:** Git, GitHub, Postman, VS Code, Docker, Vercel, Render

INTERNSHIP

- Anvistar** Pune, Maharashtra
Frontend Developer Intern 6 June 2026 - 6 July 2026
 - Frontend Development:** Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React.js.
 - UI Implementation:** Converted design requirements into responsive and interactive web pages with a focus on usability and consistency.
 - Optimization and Debugging:** Identified and resolved frontend issues while improving responsiveness, performance, and user experience.
- Zidio Development** Bengaluru, Karnataka
Full Stack Developer Intern 20 July 2026 - 20 September 2026
 - MERN Stack Development:** Developed web applications using MongoDB, Express.js, React.js, and Node.js.
 - Frontend Development:** Created responsive and interactive user interfaces using React.js and modern frontend practices.
 - Backend Development:** Developed RESTful APIs using Node.js and Express.js and integrated them with MongoDB for data management.

PROJECTS

- Eventora - Event Management Platform (MERN Stack):** Developed a full-stack event management platform using MongoDB, Express.js, React.js, and Node.js. Implemented responsive UI, REST APIs, authentication, event management, and database integration.
- MediPro - Client Project (HTML, CSS, JavaScript):** Developed a responsive web application for a client using HTML, CSS, and JavaScript. Implemented user-friendly interfaces, responsive layouts, and interactive frontend functionality based on client requirements.
- Public Bus Tracking System - Group Project (MERN, Socket.IO, Leaflet):** Collaborated in a team to develop a real-time public bus tracking system using the MERN stack. Implemented live bus tracking, interactive maps using Leaflet, real-time updates with Socket.IO, route management, and estimated arrival time features.
- AI Finance Management System (TypeScript, AI):** Developed an AI-powered finance management application using TypeScript to help users track and manage financial activities. Implemented features for expense tracking, financial insights, and intelligent assistance to improve personal financial management.

CERTIFICATIONS

- MERN Stack Development — Apna College:** Completed MERN Stack development training covering MongoDB, Express.js, React.js, Node.js, REST APIs, and full-stack web development.
- GenAI Powered Data Analytics Job Simulation:** Completed a practical job simulation focused on Generative AI and Data Analytics.
- Deloitte Data Analytics Virtual Experience Program:** Completed a virtual experience program covering data analysis, business insights, and practical analytics tasks.

CODING PROFILES

- LeetCode:** LeetCode Profile — Practicing Data Structures and Algorithms using Java.
- GitHub:** GitHub Profile — MERN stack, frontend, backend, and full-stack development projects.

ACHIEVEMENTS

- Academic Performance:** Maintained a CGPA of 8.0/10 while actively participating in software development and technical learning.
